

Data Return and Deletion Certification

Document status	EXECUTED - SYNTHETIC
Effective date	2026-07-12
Document version	Version 1.0
Matter reference	Matter Alpha / Service Operations
Preservation reference	42 items / exception date 2026-07-12

Parties. Aster Legal, a fictional enterprise legal operations group, and Cinder Bay Processing Ltd., a fictional service provider (each a “Party” and together the “Parties”).

This certification confirms completion of the agreed return and deletion workflow for the specified synthetic service data set.

1. Certified action

The provider certifies that the designated synthetic data set was removed from active processing locations.

2. Exceptions

Any retained item must be listed in the exception log for the 2026-07-12 review.

3. Backups

Residual backup copies are isolated and deleted in the ordinary rotation cycle.

4. Evidence

The certificate and deletion evidence support the 42-item Matter Alpha preservation population.

5. Reliance

This synthetic certificate is an operational record, not a representation concerning any real data set.

Execution and exhibits

The Parties acknowledge that this document is a complete synthetic training artifact. No real client matter, person, account, credential, or privileged record is included.

Exhibit A - Operational controls

Controls include role-based access, quarterly access review, encrypted transmission, documented deletion, and evidence retention sufficient to support the compliance review. The preservation population is fixed at 42 synthetic items; the stated exception review date is 2026-07-12.
