Matter reference	Matter Beta / Cinder Bay Processing Ltd.
Preservation reference	42 items / exception date 2026-07-12

Parties. Aster Legal, a fictional enterprise legal operations group, and Cinder Bay Processing Ltd., a fictional service provider (each a “Party” and together the “Parties”).

This exhibit establishes a risk-based documentation review and on-site assessment option for the vendor privacy program.

1. Documentation review

Aster Legal may request relevant policies, independent reports, and remediation summaries.

2. On-site assessment

Where documentation is insufficient, a proportionate on-site assessment may be arranged with reasonable notice.

3. Scope discipline

Audit activity will protect other customers, operational security, and confidential information.

4. Findings

Material findings receive a documented remediation plan with accountable owners and dates.

5. Cost allocation

Each party bears its ordinary internal costs unless a material confirmed failure requires otherwise.

Execution and exhibits

The Parties acknowledge that this document is a complete synthetic training artifact. No real client matter, person, account, credential, or privileged record is included.

Exhibit A - Operational controls

Controls include role-based access, quarterly access review, encrypted transmission, documented deletion, and evidence retention sufficient to support the compliance review. The preservation population is fixed at 42 synthetic items; the stated exception review date is 2026-07-12.
