

# Risk triage one-pager

Aster Legal | Matter Alpha | Internal working aid | 2026-06-30

## Operating objective

Keep the preservation workflow complete, timely, and based on aggregate operational evidence.

## Current signal

The acknowledgement split is 38 complete and 4 pending across 42 custodians. The count indicates follow-up work, not a conclusion about conduct or exposure.

## Decision point

Resolve exception requests by 2026-07-12 and retain the brief decision record with the status review.

| Signal                     | Triage approach                 | Next action                        |
|----------------------------|---------------------------------|------------------------------------|
| Pending acknowledgement    | Routine follow-up               | Confirm delivery; refresh count    |
| Scope change request       | Review before expanding tracker | Record rationale and owner         |
| Exception nearing deadline | Time-sensitive governance       | Prepare disposition for 2026-07-12 |
