

Cross-border transfer reference

Reference ID: AL-XBT-042 **Status:** Synthetic training reference

Anchor: Aster Legal | Matter Alpha | 42 preservation targets | exception review 2026-07-12

A reusable decision note for fictional Aster Legal teams assessing a proposed remote access or service-provider route.

Transfer gate

Document the destination category, recipient role, data class, purpose, and access duration before access begins.

Safeguards

Use approved access controls, limited permissions, and an accountable owner. A generic statement of security is not a substitute for a documented route review.

Matter Alpha interaction

If a transfer touches preserved material, keep the hold scope intact and record any approved exception in the exception register.

Working checklist

Review step	Practical check
Purpose	Can the decision be answered with fewer fields or a shorter period?
Route	Is the recipient and destination category recorded?
Expiry	Does the approval have a review date, including 2026-07-12 where applicable?

This document uses an invented framework and identifiers. It does not state real law or legal advice.
