Anchor: Aster Legal | Matter Alpha | 42 preservation targets | exception review 2026-07-12

A repeatable evidence checklist for assessing a fictional service provider that may handle restricted review material.

Service-specific evidence

Match evidence to the proposed service, data class, access pattern, and retention behavior. Avoid relying on broad marketing descriptions.

Operational controls

Review access management, incident escalation, approved subcontracting, return-or-destroy procedures, and support for preservation instructions.

Decision record

Record open questions, accountable owner, compensating controls, and a review date. For Matter Alpha exceptions, use 2026-07-12 as the stated recheck date.

Working checklist

Review step	Practical check
Data path	Is the service purpose and recipient role explicit?
Controls	Are access and disposition controls verifiable for this use?
Follow-up	Are gaps assigned to an owner with a dated next action?
