
Vendor Privacy Response - Summary

Response received for Matter Alpha | Aster Legal coordination | synthetic

Scope

This synthetic response confirms receipt of a privacy diligence questionnaire. It describes a proposed handling posture without incorporating vendor systems, names, identifiers, or contractual terms.

Response summary

The responder will provide a data-flow narrative, subprocess summary, retention description, and incident-notification process for review. Any supporting materials are to be delivered through the designated controlled channel.

Matter Alpha controls

The reviewing team must preserve materials in native form where practical. The Matter Alpha custodian group is 42; access exceptions must be recorded by 2026-07-12.
