

Preservation confirmation

Review record retention confirmation

Matter	AL-PB-2604
Processor	Cinder Bay Processing Ltd.
Prepared	24 June 2026
Classification	Synthetic internal review record

Purpose. Confirms that the defined Matter Beta record set has been retained in the synthetic workspace.

Confirmation

Corporate Privacy Legal confirms that the review packet and status log have been preserved as of 24 Jun 2026. The preserved set excludes live personal data, credentials, and production exports.

Cinder Bay Processing Ltd. is asked to retain its synthetic response materials and version history until the review is closed.

Verification

The coordinator will verify the next update against the deadline calendar and findings register.

Findings snapshot

ID	Severity	Control topic	Target
B-01	High	Purpose limitation	15 Aug 2026
B-02	High	Access control	15 Aug 2026
B-03	High	Deletion workflow	15 Aug 2026
