

Remediation confirmation

High-finding evidence acceptance record

Matter	AL-PB-2604
Processor	Cinder Bay Processing Ltd.
Prepared	24 June 2026
Classification	Synthetic internal review record

Purpose. Records the acceptance conditions for high finding remediation evidence.

Acceptance conditions

For B-01, B-02, and B-03, the processor must submit a control description, test result summary, accountable role, and effective date by 15 Aug 2026.

A statement of intent alone is not closure. Each item remains open until the review coordinator records a sufficient evidence description.

Residual risk

If evidence is incomplete, the matter owner will document a temporary operational restriction or risk-acceptance decision.

Findings snapshot

ID	Severity	Control topic	Target
B-01	High	Purpose limitation	15 Aug 2026
B-02	High	Access control	15 Aug 2026
B-03	High	Deletion workflow	15 Aug 2026
