

Aster Legal | Privacy Notice Review Standard

Purpose

This standard provides a repeatable review for external privacy notices. It is a synthetic internal training record and does not describe a real organization or service.

Review criteria

Confirm that the notice identifies the controller role, categories of information, purposes, disclosures, retention approach, rights route, and contact channel using clear, audience-appropriate language.

Matter Alpha safeguard

Where a notice references deletion or retention, confirm that the language preserves lawful holds. Matter Alpha preservation population: 42. Exception review date: 2026-07-12.

Approval record

Privacy Counsel confirms factual owners, Product confirms service descriptions, and Security confirms control statements. Material changes require a dated review record.

Publication controls

Publish only the approved version, retain the review checklist, and remove superseded drafts from public distribution channels.
