

FY2025 Statutory Close Summary

INTERNAL SYNTHETIC CLOSE SUMMARY - HISTORICAL ARCHIVE

Entity: Cedar Works (synthetic) **Period:** FY2025 **Currency:** JPY

This document is a synthetic internal close summary prepared for training and archive continuity. It does not evidence an external filing, a statutory submission, legal compliance, tax compliance, audit completion, or a bank confirmation.

Close status

The FY2025 monthly cash rollforward is retained as a closed historical record. The controlled successor handoff is the December FY2025 ending cash balance. Any FY2026 activity remains a separate period and is not represented as part of this close.

Close area	Archive treatment	Status
Monthly cash rollforward	Twelve synthetic monthly movements are preserved with formula-based ending balance checks.	Closed
Opening-balance handoff	December ending cash is the source for FY2026 opening balance.	Controlled
Supporting confirmation	Synthetic redacted training scan retained only as an illustrative archive artifact.	Reference only

Archive controls

The associated rollforward workbook contains visible monthly tie checks and a FY2026 opening-balance reconciliation. Control outcomes are internal model checks only; they do not represent assurance or an audit opinion.

Successor-period note

FY2026 Q1 has a JPY 12,400,000 cash variance identified for successor-period review. This context does not revise or invalidate the FY2025 historical archive.

Retention and use

Retain as a closed synthetic training record under the p14 archive scope. Do not use for external reporting, statutory filing, legal conclusions, tax determination, banking instructions, or identity verification.
