

Reconciliation Control Narrative

Evidence ID CW-EV-2603-09 | CTRL-CASH-01 | Owner: Financial Control | 2026-04-03

Control objective

Ensure cash reported in the FY2026 Q1 ledger is reconciled to bank cash before financial close approval.

Narrative

Treasury Operations provides the synthetic bank position. Financial Control compares the position to the ledger, records each reconciling item, and prepares the variance bridge. Independent Review verifies arithmetic, evidence IDs, owner roles, dates, status, and reviewer outcome.

March application

Bank cash JPY 486,200,000 was compared with ledger cash JPY 498,600,000. The JPY 12,400,000 unfavorable variance was fully assigned to receipt timing JPY 7,200,000, vendor timing JPY 3,100,000, fees JPY 1,300,000, and FX JPY 800,000.

Evidence retention

The evidence index links each file to a unique evidence ID and control ID. Items are marked Closed and Accepted after independent review. This narrative is synthetic and not a policy for an external entity.

Synthetic internal audit evidence. No external records or personal data.
