

Department Expense Policy

Cedar Works | FY2026 Q1 | Internal working document | Synthetic records only

Purpose and scope

This policy governs Q1 FY2026 department expenses recorded to ENG-310, FAC-510, OPS-210, SALES-410, and FIN-100. The Q1 extract contains 48 records totaling JPY 9,340,000; FIN-100 is a finance oversight cost center and is not represented by a department CSV.

Approval and evidence

The expense owner submits a coded request with business purpose and vendor documentation. The department approver confirms budget availability. Finance Controller performs close reconciliation. Sales Operations Lead reviews travel and entertainment (T&E;) support. Pending approvals remain open until director authorization is complete.

Budget control

Variance equals actual less budget: a positive variance is unfavorable and a negative variance is favorable. The Q1 extract shows JPY 790,000 unfavorable against row-level budgets. March cash variance of JPY 12,400,000 unfavorable is a cash-management context metric and must not be forced to reconcile to expense records.

Role matrix

Role	Primary responsibility	Evidence	Escalation	Close action
Expense owner	Business purpose and coding	Vendor support	Department approver	Submit
Department approver	Budget and policy approval	Approval status	Director	Approve pending
Sales Operations Lead	T&E review	Purpose/attendee evidence	Sales Director	Resolve review
Finance Controller	Reconcile and report	CSV-to-workbook check	CFO	Close control

Prohibited practices

Do not use real card, bank, tax, credential, or personal information in this record set. Do not alter records merely to match the March cash variance.
