Product Operations Fy2026 Planning Roadmap Review

JUNIPER WORKS / p08-full-007588 / RUN M-27 / 2026-07-13

ALPHA F1	PRECISION	RECALL	BETA F1
0.873	0.881	0.865	0.846

Decision context

This report records a bounded decision briefs evaluation on Product Alpha Q3 / Product Beta Q4. The 18.4% adoption population is synthetic. Product Alpha is retained as a research checkpoint, not as a deployment authorization.

Engineering interpretation

Aggregate improvement remains meaningful only with the frozen scoring policy. The review therefore keeps slice-level calibration, dataset lineage, and the comparison with Product Beta attached to run M-27.

Lineage
