Decision review: 2026 07 13 Capture Intake Capture Disposition Searchable Report Pdf Text

For 2026 07 13 Capture Intake Capture Disposition Searchable Report Pdf Text, evidence docket p02-src-012215 / p02-full-012215 uses p02-full-006415 to assess the Disposition operational component as a searchable evidence report, keeping its service context separate from the recorded Checkout cause, with a specific lens on SLO interpretation and request-error allowance. The review method is to cross-check the approved source against the operator handoff. The evidence is scoped to downloads/inbox, framed by term.evidence-chain, rel.archive.closed, date.2026-07-13, and evaluated to preserve the stated service ownership. The removed queue-pressure guardrail allowed demand to exceed consumer concurrency; retry amplification increased Q-07 and produced Checkout latency and failures. Identity was load-degraded only, never the initiating cause.
