For 2026 07 15 Capture Intake Capture Disposition Searchable Report Pdf Text, evidence docket p02-src-004215 / p02-full-004215 uses p02-full-001674 to assess the Disposition operational component as a searchable evidence report, keeping its service context separate from the recorded Checkout cause, with a specific lens on change-control ordering and rollback evidence. The review method is to test the declared scope boundary before interpreting a service signal. The evidence is scoped to downloads/inbox, framed by inc.inc-260713, rel.archive.closed, date.2026-07-15, and evaluated to record mitigation and recovery as different states. The removed queue-pressure guardrail allowed demand to exceed consumer concurrency; retry amplification increased Q-07 and produced Checkout latency and failures. Identity was load-degraded only, never the initiating cause.

Assigned actions

1. Checkout Operations: confirm that 2026 07 15 Capture Intake Capture Disposition Searchable Report Pdf Text cites the current p02-full-001674 hash before distribution.
