

# Product Alpha R7 - SRC-004894

Searchable release evidence brief

|            |                 |
|------------|-----------------|
| Record     | p01-full-004894 |
| Source     | p01-src-004894  |
| Dependency | p01-full-005941 |
| Review     | 2026-07-20      |

## Release focus

Product Alpha R7 operational release note for SRC-004894. This record preserves the release decision boundary and the post-release observation needed by on-call reviewers.

## Measured outcome

The 2026-07-13 release completed with p95 latency of 184 ms against a 200 ms SLO. The observation window recorded 84,200 requests, 84,149 successes, and 51 unsuccessful requests.

## Release controls

ADR-042 remains the asynchronous release gate. Do not advance a rollout solely from a retrospective metric; verify the gate, change record, and customer-impact assessment together.

## Review cadence

The next cross-functional review is 2026-07-20. Engineering, support, and release management should use this note to compare the dependency evidence with the measured outcome.

## Action checks

1. Confirm ADR-042 gate evidence. 2. Reconcile 84,200 requests and 84,149 successes. 3. Bring unresolved customer impact to the 2026-07-20 review.
