

VND-26Q3-223 platform evidence

Synthetic Aster Loop engineering evidence derived from p01-src-005262.

Platform under review: Platform Meridian.

Recorded trial p95: 168 ms.

This searchable assessment records comparative planning evidence only.

Review scope: interface behavior, operational traceability, and release-gate fit.

Disposition: retain the evidence with the role-based decision record.

Next step: perform a focused compatibility walkthrough before a release decision.
