

# Manager onboarding reference

Reference: OP-MGR-2026-08    As of: 2026-08-18

A fictional reference sequence for managers joining a hiring panel or supporting workforce planning.

## First-week orientation

Start with the role design, structured process, and appropriate handling of non-identifying information.

|       |                                                                         |
|-------|-------------------------------------------------------------------------|
| Day 1 | Review Requisition Alpha context and the approved competency framework. |
| Day 2 | Practice one structured prompt and evidence note.                       |
| Day 3 | Join a calibration discussion using synthetic examples.                 |
| Day 5 | Confirm panel responsibilities and escalation route.                    |

## Manager responsibilities

Managers should keep hiring conversations consistent, transparent, and job-related.

|                   |                                                                                        |
|-------------------|----------------------------------------------------------------------------------------|
| Before interviews | Review prompts, rating anchors, and timing.                                            |
| During interviews | Ask the core questions, use neutral follow-ups, and write evidence notes.              |
| After interviews  | Participate in calibration; do not retain personal materials in this reference folder. |

## Reference safeguards

This library is not a source of policy obligations or employment records.

|                        |                                                                                          |
|------------------------|------------------------------------------------------------------------------------------|
| Use aggregated context | Use 3 openings and JPY 7.2-8.4M only as fictional planning context.                      |
| Avoid personal data    | Do not add names, contact information, identifiers, compensation records, or signatures. |
| Keep records separate  | Store any governed operational records only in their approved system.                    |

This document is a fictional internal reference. It does not contain personal data, employment records, or binding policy language.
