

Engagement survey summary

Orchid People | Synthetic aggregate readout | As of 2026-08-18

Executive signal

118 valid responses from 146 invited employees produced an 80.8% response rate. Engagement index is 76/100 and eNPS is +24. The results point to a generally constructive employee experience with a practical opportunity to make manager routines and growth conversations more consistent.

Core measures

Measure	Result
Eligible population	184 employees
Invited	146 employees
Valid responses	118 (80.8% of invited)
eNPS	+24
Engagement index	76 / 100

Themes

Strengths: clearer priorities, collaborative peers, and a steady sense of day-to-day support. Watch areas: uneven manager communication, unclear growth paths in some teams, and a need to protect wellbeing during delivery peaks.

Action focus

Action	Near-term owner
Run manager listening huddles	People Ops + people managers
Calibrate growth-path language	People Ops + functional leaders
Share team-level follow-through	Leadership team
