

Story Alpha: editor response

Civic Ledger | 2026-08-22

Verified record	FOIA batch 17, verified 2026-08-19
Agency reference	Agency Alpha-17 Project Lantern CL-A17-2026-04
Editorial status	Open verification items; no finding of wrongdoing

Response to the desk

The current Story Alpha update should remain limited to the verified FOIA batch 17 record. The review is dated 2026-08-22 and the packet verification date is 2026-08-19. Reporting notes should be identified as working material rather than presented as agency records.

Unresolved verification items

1. The requested quotation does not appear in the verified materials. It remains an unresolved gap; the draft should not reconstruct or attribute wording that the record does not contain.
2. An administrative cover entry and a timeline note contain a date mismatch. Preserve both entries in the fact-check record and seek clarification before assigning significance to the difference.

Editorial conclusion

Neither unresolved item establishes wrongdoing. The next copy should distinguish verified facts, open questions, and the remaining verification step in plain language.
