

Course Alpha: Inquiry and Explanation

Course Alpha 2026 Term 1 | Planning date: 2026-09-14 | Cohort IDs: ML26-S001 through ML26-S036

Learning purpose

Learners build a defensible explanation by moving from a focused question through evidence selection, reasoning, peer feedback, and reflection. All examples in this outline are synthetic instructional materials.

Learning sequence

Moment	Learning move	Evidence of progress
Launch	Identify a question	Question card
Investigate	Choose evidence	Evidence set
Explain	Link claim and evidence	Short explanation
Reflect	Revise with feedback	Reflection note

Canonical assignments

A-101 Evidence Map; A-102 Source Comparison; A-103 Claim-Evidence-Reasoning Brief.

Assessment alignment

Every assignment uses the 20-point rubric: Evidence E6, Reasoning R6, Organization O4, and Format F4. Course records use only ML26-S001 through ML26-S036; no real learner records are included.
