

Synthetic cohort feedback summary

Maple Learning | Course Alpha 2026 Term 1 | synthetic snapshot 2026-09-14

Cohort frame

36 synthetic learner IDs: ML26-S001 through ML26-S036.

Course Alpha A-101, A-102, and A-103 submissions are instructional samples, not real grades.

Pattern review

Evidence selection is often specific; reasoning benefits from explicit linking language.

Revision prompts ask learners to name one limitation and one next step.

Feedback protocol

Use the 20-point rubric: Evidence 6, Reasoning 6, Organization 4, Format 4.

Course Beta continues the same synthetic world with B-201, B-202, and B-203.
