Maple Learning | Course Alpha 2026 Term 1 | synthetic snapshot 2026-09-14

ML26-S004 | A-101 Evidence Map

Claim: the fictional sensor trial supports a targeted change.

Evidence: two classroom observations; Reasoning: the observations require a qualified claim.

ML26-S019 | A-102 Source Comparison

Source A records a trial path; Source B records a user response.

Connection: each source informs a different part of the revised claim.

ML26-S028 | A-103 Claim-Evidence-Reasoning Brief

Revision: state evidence first, explain its relevance second, then check format and name a limitation.
