

# 2026 07 13 Assessment Defensive Testing S000564

Artifact p03-full-000564 | Assigned reporting period: 2026-07-13 | AC-27 / RISK-031

## Assurance purpose

This synthetic assurance report assesses defensive-test evidence trace for the named review context. Its evidence test is to trace the defensive-testing topic from the evidence reference through a reviewer conclusion without implying active testing. It is a documentation-focused, defensive record for Cobalt Harbor Systems and does not claim a live test, intrusion, compromise, or operating-effectiveness result.

## Direct foundation source

This report is assigned to 2026-07-13. Its direct foundation is p03-full-000048 (2026-07-14-assessment-defensive-testing-evidence-metrics-tsv-s000048.tsv), whose source review date is 2026-07-14. The source records defensive-testing, case CASE-260713-184, and evidence reference EV-184-01. The assigned period and source date are intentionally shown separately.

## Recorded foundation measures

| Measure                   | Value | Unit    |
|---------------------------|-------|---------|
| Privileged Roles Reviewed | 48    | records |
| Timely Attestations       | 47    | records |
| Evidence Completeness     | 24    | items   |

## Review analysis

Finding: the source supports documentary assurance only, not a technical test result. The direct record permits a verifier to test defensive-test evidence trace by tracing EV-184-01 to a bounded AC-27 conclusion. The review retains the distinction between 47 timely attestations and final completion after compensating review where those measures appear in the foundation; no prior timing is rewritten.

## Recommended disposition

Disposition: retain a safe evidence-trace conclusion for GRC review. Retain the source-supported conclusion with the RISK-031 treatment record and document independent preparer and reviewer roles for any exception disposition. This report is fully fictional, uses no sensitive operational data, and makes no Kio indexing, history, search, chunk, or performance claim.
