

# 2026 07 14 Assessment Assurance Scope Assurance Report Pdf Text S009917

Artifact p03-full-009917 | Source p03-src-009917 | Assigned period: 2026-07-14

**Review question**

How should this assurance-scope source authority review use the assigned 2026-07-14 record without overstating dependency evidence?

**Procedure**

Analyst will check that scope commentary does not replace the supplied source as fact authority. The delimiter-aware local foundation record p03-full-000806 remains the fact authority; its values are retained as supplied. This is a bounded synthetic GRC review, not a penetration test, live-system assessment, or Kio claim.

| Risk disposition         | RISK-031 remains residual Medium after compensating review                                                                                       |

**Observation and finding**

The source record is fact authority. The source remains authoritative for its fields; scope commentary is analytical only. It does not erase the documented assurance gap: incomplete quarterly privileged-access review evidence created RISK-031; residual risk remains Medium after compensating review.

**Accountable action**

GRC Evidence Steward will send the authority boundary to the independent reviewer. Preparer and reviewer roles remain separated for exception disposition. Corpus production and QA establish no Kio indexing, history, chunks, search quality, or performance claim.
