

2026 07 14 Assessment Control Validation Assurance Report Pdf Text S009951

Artifact p03-full-009951 | Source p03-src-009951 | Assigned period: 2026-07-14

Review question

How should this control evidence period comparison review use the assigned 2026-07-14 record without overstating dependency evidence?

Procedure

Analyst will compare the assigned period marker and dependency period while preserving both labels. The delimiter-aware local foundation record p03-full-000685 remains the fact authority; its values are retained as supplied. This is a bounded synthetic GRC review, not a penetration test, live-system assessment, or Kio claim.

Dependency source ID	p03-full-000685
Dependency source path	security/pentest-reports/foundation/data/2026-07-15-assessment-assurance-scope-evidence-metrics-tsv-s000685.tsv
Assigned period	2026-07-14
Dependency source period	2026-07-15
Dependency fact summary	Dependency artifact p03-full-000685 (source p03-src-000685) identifies the metric privileged roles reviewed with a reported value of 48 records.
Control context	Aegis Control AC-27
Risk disposition	RISK-031 remains residual Medium after compensating review

Observation and finding

The source record is fact authority. The comparison identifies a period relationship without establishing control effectiveness. It does not erase the documented assurance gap: incomplete quarterly privileged-access review evidence created RISK-031; residual risk remains Medium after compensating review.

Accountable action

GRC Evidence Steward will add the comparison rationale to the closure review. Preparer and reviewer roles remain separated for exception disposition. Corpus production and QA establish no Kio indexing, history, chunks, search quality, or performance claim.
