

2026 07 20 Assessment Defensive Testing Assurance Report Pdf Text S009684

Artifact p03-full-009684 | Source p03-src-009684 | Assigned period: 2026-07-20

Review question

How should this defensive review handoff review use the assigned 2026-07-20 record without overstating dependency evidence?

Procedure

Analyst will check the assigned handoff date against the source record without merging their meanings. The delimiter-aware local foundation record p03-full-000048 remains the fact authority; its values are retained as supplied. This is a bounded synthetic GRC review, not a penetration test, live-system assessment, or Kio claim.

Dependency source ID	p03-full-000048
Dependency source path	security/pentest-reports/foundation/data/2026-07-14-assessment-defensive-testing-evidence-metrics-tsv-s00048.tsv
Assigned period	2026-07-20
Dependency source period	2026-07-14
Dependency fact summary	Dependency artifact p03-full-000048 (source p03-src-000048) identifies the metric privileged roles reviewed with a reported value of 48 records.
Control context	Aegis Control AC-27
Risk disposition	RISK-031 remains residual Medium after compensating review

Observation and finding

The source record is fact authority. The source permits a handoff review but gives no assurance of downstream action. It does not erase the documented assurance gap: incomplete quarterly privileged-access review evidence created RISK-031; residual risk remains Medium after compensating review.

Accountable action

GRC Evidence Steward will route the handoff note to a separated reviewer. Preparer and reviewer roles remain separated for exception disposition. Corpus production and QA establish no Kio indexing, history, chunks, search quality, or performance claim.
