Research Questions: Study Alpha

Beacon Field Research | Study Alpha | 2026-07-13 | session UX-184 | n=24

Primary questions

Can participants understand the starting point? Can they navigate the core flow? Can they recover from uncertainty without coaching?

Accessibility questions

Which labels, focus states, input paths, zoom conditions, caption needs, or timing controls materially affect task completion or confidence?

Interpretation discipline

Separate observed behavior from participant explanation and facilitator inference. n=24 is directional evidence, not a population estimate.

Session anchor

2026-07-13, session UX-184: calibration evidence for the codebook and observer practice.

Synthetic research artifact. Participant codes only; no real PII, recordings, faces, voices, credentials, or copied content.
