

Transcript coding excerpt

Beacon Field Research | Study Alpha | 2026-07-13 | UX-184 | synthetic coding sample

Excerpt [07:40]

S08 identifies the filter control as the next place to check. Code: Navigation. Evidence: goal-to-control matching.

Excerpt [10:20]

Observed behavior: pause before activating the filter. Code: Friction. Evidence: delayed commitment without moderator instruction.

Excerpt [19:45]

Observed behavior: labels scanned before selection. Code: Comprehension. Evidence: top-to-bottom label review.

Excerpt [25:20]

S08 requests a nearby status message. Code: Confidence. Evidence: need for result confirmation.

Excerpt [49:20]

Analyst note: confirmation noticed late. Code: Follow-up. Evidence: debrief synthesis, not a quantitative finding.

Coding guardrail

Codes summarize synthetic interaction excerpts. They are not claims about real people, product performance, or prevalence.

Synthetic research record - no real participant data, recordings, identities, or quotes.
