

Product Alpha R7 Developer Guide

Aster Loop (synthetic organization) | Product Alpha R7 | 2026-07-13 | p95 184 ms | ADR-042

Setup

Use the synthetic local fixture. Install Rust, Node, and Python. No credentials or production endpoints are needed.

Flow

Client -> Edge API -> Release Coordinator -> Event Bus -> Observability. Durable admission returns a ticket.

Testing and release

Run cargo test, quickstart, smoke test, and notebook. Budget $28+32+46+24+18+36 = \text{p95 } 184 \text{ ms}$.
Shadow then 10%, 50%, 100%; stop on p95 or schema failure.
